

Will you share your experiences with us?

We are looking for people who are scheduled to undergo TPIAT surgery to participate in an interview study.

About the research study: Transplant surgeons at the University of Wisconsin are interested in improving care for patients undergoing total pancreatectomy islet auto-transplant (TPIAT) surgery. We are interested in understanding patients' reasons for seeking surgery, hopes and expectations for life after the surgery, and experiences after surgery. To participate, you must be 13 or older. If you are under 18, your parent must provide consent.

Study participation is voluntary and involves:

- Interviewing over Zoom or phone
- One interview & brief survey before surgery
- One interview & brief survey 3-4 months after surgery
- 45-60 minutes per interview with \$50 payment (\$100 total)

The study team will maintain strict confidentiality regarding your name and other identifying information.

Interested in participating and want to know more? Please contact the study interviewer, Megan Saucke, at saucke@wisc.edu, or 608-265-2458. If you are under 18, please have your parent contact Megan.

Email is generally not a secure way to communicate health related information as there are many ways for unauthorized users to access email. You should avoid sending sensitive, detailed personal information by email. Email should also not be used to convey information of an urgent nature. If you need to talk to someone immediately or would prefer not to receive study communication by email, please contact Megan Saucke at 608-265-2458.

Concerns about the study? Please email the study's lead investigator, Dr. Carrie Thiessen, at thiessen@surgery.wisc.edu, or call 608-263-9903.
